Presents

KOFFEE WITH KATHY

Get Up to Speed with LEED

**Confused about all the changes in the Construction Industry?
You're not alone!**

Come to the BX for Koffee with Kathy for the answers

Who should attend? Anyone interested in a relaxed format to 'Get Up to Speed with LEED'. Topics: Guided by attendees' current needs, concerns, project dilemmas, test prep issues, rating systems, the future of LEED or any topics regarding the Green Building Industry

- LEED is Just a fad, isn't it?
- Should all of my staff become LEED APs?
- Current News and Updates about LEEDv3
- What role do subcontractors play in LEED Projects?
- Which rating system should I use for my project?
- What is in the pipeline for the LEED rating systems?
- What LEED requirements will meet my business objectives?
- Do general contractors & subcontracts need to know about LEED?

"LEED certification is becoming so important that some architectural firms find it necessary to require the general contractor to provide LEED education to their subs." SitePrep/01.Apr.09

How will ASHRAE 189.1 affect the Industry?

**Come and join us to talk about your interests in the Green Building Industry.
Wednesday, April 28 at 7:30 am at Builders Exchange, Inc.**

Coffee and donuts will be available.
